

# SMEs in the Circular economy

## The internal market from an entrepreneurs perspective

# Founders of the recycling company

In 100 years a development from garbage collector into a professional recycling industry

# Fully automatic sorting lines for recovery of the raw materials

For nearly every product the recycling industry will invent a way for recycling.

# Our role in the circular economy

# Recycling Industry has an important role in the circular economy

# Internal Market ?

# Challenges for all the partners in the value chain

- Removing all the barriers for a single market for secondary raw materials.
- Harmonization of the EU implementation and execution in the national legislation
- Simplifying formalities for resource shipments
- Market driven approach
- Integral approach of all the partners in the value chain for the challenges we are facing.

A photograph of a tree-lined path in a park. The path is made of reddish-brown bricks and leads into the distance. The trees are lush green and form a canopy over the path. The text "THANK-YOU FOR YOUR ATTENTION" is overlaid in white, bold, capital letters across the middle of the image.

**THANK-YOU FOR YOUR ATTENTION**
